Otto Group Academy

# How to get a new password

A very simple guide. Read it slowly. Do one step at a time.

### Stop. Read this first.

Have you signed in on this website before?

- **Yes** — good. Follow the steps below.
- **No** — stop. Do not click Forgot password. Go to the sign-in page and click **click here** to make an account first.

## What you need

• Your **work email** (the same one you used before)
• You can open that email
• About **5 minutes**

## Do these 7 steps

### 1 Open the website

Go to https://lms-otto-group.onrender.com/login
You should see the words **Welcome back**.

### 2 Click Forgot password?

Look under the big red **Sign in** button. Click the words **Forgot password?**

### 3 Type your email

Type your work email. Click the red button **Send reset link**.
A message will appear. That is OK. Keep going.

### 4 Open your email

Look for a message called **Reset your Otto Group Academy password**.
Cannot see it? Wait 2 minutes. Then look in **Spam**, **Junk**, or **Quarantine**.
This email is only good for **2 hours**. If you wait too long, go back to Step 1.

### 5 Click the link

In the email, click **Reset your password**. A new page will open. That is the right page.

### 6 Make a new secret password

Type a new password in the first box. Type the **same** password in the second box. Click **Reset password**.

**Make your password like this:**
at least **10** letters and numbers long · one **BIG** letter like **A** · one **small** letter like **a** · one **number** like **1**
**Good:** Sunshine2026 **Not good:** hello

### 7 Sign in

Click **Go to sign in**. Type your work email and your **new** password. Click **Sign in**.
You are done. Well done.

---

## If you get stuck

**I cannot find the email.** Look in Spam, Junk, or Quarantine. Check you typed the right work email.

**The link does not work.** It is too old. The link only lasts 2 hours. Start again from Step 1.

**It says the passwords do not match.** Type the same new password in both boxes. Type it slowly.

**It will not take my password.** Make it longer. Add a BIG letter, a small letter, and a number. Try Sunshine2026.

**I have never signed in before.** Do not use Forgot password. Register first.

**I still need help.** Email training@vectra-intl.com
